Keep fighting the good

The gadfly

We are a new, collectively-run student organization at Middlebury College in Middlebury, VT, USA. We are the only radical voice amidst a sea of politically correct, pro-capitalist, "let's work within the system" type people.

I've included our latest, our second, issue of the Gadfly. On page 33 there is an interview with a woman who frequents The Free Hetherington. We thought you might want to check it out/include it in your library.

For now we publish any and all articles through a radical lens in their raw, unedited form. It was put together in a totally DIY manner - Members shared and donated skills, time, money to the printing budget... etc. We hope to expand in the years to come.

Hi there,  
We hope that you enjoy a wee break  
from your good work... Here are some  
-tracks for you all.

Wishing you all the  
very best;

According to Cornish legends, St. Piran was a Celtic monk  
sailed from Ireland on a millstone in the 7th century,
